PROFESSIONAL SUMMARY

Computer Science graduate and Master's student with 3+ years of experience in Data Analysis, Operational Analytics, Support Operations, and Business Intelligence. Skilled in SQL, Python, Power BI, Tableau, Looker Studio, Machine Learning, KPI Reporting, SLA Monitoring, Dashboard Development, and Process Improvement. Proven track record recognized with two Above & Beyond Awards at TELUS Digital and 1st Place Mobility City Challenge Hackathon win with European Grand Final qualification. Targeting Data Analyst, Operations Analyst, BI Analyst, and Reporting Analyst roles.

TECHNICAL SKILLS

Programming & Data Analysis: Python, SQL, R, Pandas, NumPy, scikit-learn, TensorFlow, Data Cleaning, EDA, Statistical Analysis

BI & Visualization: Power BI, Tableau, Looker Studio, Dashboard Development, KPI Reporting, Data Visualization, Excel, Google Sheets

ML & Predictive Analytics: Random Forest, Classification Models, Predictive Modeling, SLA Breach Prediction, Model Evaluation, Feature Importance

Operations & Analytics: Operational Analytics, SLA Monitoring, Root Cause Analysis, Trend Analysis, Process Improvement, Workflow Optimization, Support Operations

Databases & Tools: MySQL, PostgreSQL, SQL Joins, CTEs, Window Functions, Git, GitHub, Jupyter Notebook, Streamlit, CRM Systems

Automation & AI: Workflow Automation, Reporting Automation, AI Automation, Data-driven Decision Making, Google Sheets Automation

PROFESSIONAL EXPERIENCE

TELUS Digital | Riga, Latvia | Jun 2025 – Present

Senior Product Specialist

Responsibilities:

- Analyzed 30+ advanced advertising, billing, targeting, and performance cases daily using backend data, case logs, and dashboards.
- Identified root causes and recurring operational patterns across user reports, reducing repeat case escalations.
- Collaborated with internal quality and product teams, sharing trend insights that contributed to process improvement initiatives.
- Applied SLA Monitoring and KPI tracking to maintain consistent case handling accuracy across operations.

Impact:

- Improved issue investigation quality through structured root cause analysis and data-driven case interpretation.
- Contributed operational insights that supported product team decision-making and platform improvement cycles.

TELUS Digital | Riga, Latvia | Nov 2024 – Jun 2025

Product Specialist

Responsibilities:

- Handled 25–35 support cases daily across chat, email, and phone channels for users and business clients.
- Resolved advertising campaign, billing, account, and platform feature cases with structured troubleshooting workflows.
- Collaborated with product, legal, and technical teams to resolve escalated cases and reduce resolution time.
- Tracked support metrics, maintained knowledge base accuracy, and reported customer feedback for continuous improvement.

Impact:

- Maintained consistent SLA compliance and case quality across multi-channel support operations.
- Strengthened cross-functional issue resolution by coordinating with product, legal, and technical teams.

Data Analyst

Responsibilities:

- Collected, cleaned, and analyzed business datasets to identify trends, patterns, and actionable insights for decision-making.
- Built analytical reports and dashboards supporting strategic and operational decisions across marketing and sales.
- Analyzed digital marketing campaign performance across platforms, tracking KPIs and optimizing campaign outcomes.
- Managed CRM systems to support B2B communications and improve workflow efficiency.

Impact:

- Improved reporting quality by transforming raw data into structured dashboard insights for stakeholder use.
- Supported data-driven marketing decisions by analyzing campaign performance and customer behavior trends.

Demola Global | Riga, Latvia | Sep 2023 – Dec 2023

Technical Specialist Intern

- Collaborated in a team to design and develop a chatbot and website improving university access for mature-age students.
- Applied Data Science, Angular, HTML, CSS, and Statistical Analysis skills throughout the project lifecycle.
- Delivered an innovative solution commended for addressing real accessibility needs of non-traditional students.

PROJECTS

Customer Support Intelligence Platform – SLA Breach Prediction & Operational Analytics

Tech: Python, Streamlit, scikit-learn, Pandas, Plotly, SQL

GitHub: github.com/RidhanPar/customer-support-intelligence-platform

- Built an analytics platform predicting SLA breach risk and monitoring ticket performance across 500 support records.
- Achieved 96.00% model accuracy and 0.9737 F1-score using Random Forest classification on the demo dataset.
- Delivered a Streamlit dashboard with KPI cards, 5 risk levels, breach visualizations, and automated action recommendations.

EduPulse – Student Performance Prediction System

Tech: Python, Flask, scikit-learn, Pandas, NumPy

Live: edupulse-platform.onrender.com | GitHub: github.com/RidhanPar/edupulse-platform

- Developed a web-based early warning platform predicting academic risk using Educational Data Mining techniques.
- Selected Random Forest achieving 93.67% accuracy, 0.9057 F1-score, and 0.9949 ROC AUC across 4 evaluated models.
- Validated on 79 unseen student records, achieving 89.87% accuracy and 85.93% overall comparison score.

Smart Shift Swap & Taxi Automation Systems — Self-Initiated Projects at TELUS Digital

Tech: Google Sheets, Advanced Formulas, Data Validation, Operational Reporting

- Independently designed two internal automation systems — shift swap approvals and taxi eligibility validation — reducing manual processing effort across daily operational workflows.
- Built rule-based conflict detection, automated tracking, and reporting dashboards supporting workforce coordination and operational efficiency.

EDUCATION

Master of Science in Computer Science — ISMA, Riga | May 2024 – Present | Expected: 2026

Bachelor of Engineering Science in Computer Science — Riga Technical University | Jan 2021 – Jan 2024

Thesis: *Comparative Analysis of Pandas and Polars Python Libraries* | Grade: 6.52 | 180 ECTS

CERTIFICATIONS

- Data Visualization with Python — IBM via Coursera | Dec 2024 | credly.com/badges/8324a909
- Google Data Analytics Professional Certificate — Google Career Certificates | 2025

AWARDS

- Above & Beyond Award — Q4 2025 & Q2 2025 | TELUS Digital | Two-time recipient within 2025, recognized for outstanding performance, innovation, and consistently exceeding role expectations.
- 1st Place Winner — Mobility City Challenge 2022 | Riga Airport & University of Latvia | Won EUR 1,000 prize among 105 students across 23 teams from 6 Latvian universities. Qualified for European Grand Final in Barcelona, Spain.
